These results occurred primarily for the following reasons:

Increasing Revenues through:

- Repositioning asset and \$1,400,000 capital improvement program.
- Robust development of a new marketing program with targeted collaterals and external business development.
- Execution of one-on-one/shared care programs.
- Development of new pricing programs after re-capitalization of asset.
- Combining IL units to provide broader options for customers.
- Executing new ancillary fee profit centers such as adult day care, technology, and apartment delivered meals, etc.

Reduction of expenses in the following areas:

- Better management of overtime and agency employment.
- Reducing excess staffing in assisted living and specific departments such as maintenance and developing cost effective out sourced options.
- Negotiation of lower insurance premiums.
- Negotiation of group discounts in contracts and purchasing.
- Negotiation of lower benefit costs.
- Negotiation of a group food contract commensurate with cost-control training.
